# FEEDBACK SERVICE
HOW TO?

Main Components and their Interaction

ToDos

- In order for the application to be able to connect to the feedback-web-service, the address of the web-service in the application project needs to be modified.

- Please, find "**feedback_web_service_url**" keyword in *strings.xml* file in *feedback-service* project. Currently, the address is " *http://192.168.0.102:8803/feedback*".

- Please, replace the current IP address with the IP address of **local machine** on which the feedback-web-service project is running.

- Please, have in mind that the application and web-service need to be in the same network. Furthermore, feedback-web-service project needs to be able to access "https://usg-demo-4.sb.dfki.de:30101/".
